\*for reordering please reference the product order code

The compact SYLVANIA LED MR16 is designed to fit into standard MR16 low voltage fixtures and sockets. It is ideal for use with tracks, rails, cables and pendants in interior architectural, retail, exhibit, display, and residential applications.

The lamp features standard MR16 bi-pin connectors and a sleek housing with chrome finish. LED MR16 comes in blue or white (white available in 3000 and 3500 Kelvin). Unlike conventional light sources that decrease in color temperature as they are dimmed, the MR16 will maintain a constant color temperature.

## Application Information

### CAUTIONS

- To avoid electrical shock and early lamp failure, this lamp must only be used indoors and in dry locations
- No user serviceable parts inside. To avoid electrical shock, do not disassemble lamp
- This lamp is not intended for use in emergency light fixtures or exit signs
- LED MR16 lamps will not dim. The lamps will extinguish at lower dimmer settings. Dimming circuits will not harm the lamps
- LED MR fits most standard, low voltage MR16 lighting fixtures including: track, strips for case lighting, adjustable downlighting, landscape lighting and recessed lighting
- LED MR16 lamps are not compatible with integral electronic transformers; LED MR16 lamps can run on magnetic transformers only
